DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Inoue et al (US Patent Application Publication 2002/0062795)

Inoue et al discloses a cylinder block for an internal combustion engine having a lower, crankcase receiving portion and an upper, cylinder head receiving portion, at least one cylinder bore (S₁-S₄) formed therein extending between said lower and upper portions and surrounded at least in part by a coolant jacket (W), and a pump receiving portion (55) formed at one side of said cylinder block and having a communication passage (71) communicating with a said cooling jacket (W) formed in said cylinder block, said communication passage having an upper wall that is inclined (figure 6) upwardly relative to said cylinder bore from said pump receiving portion (55) toward the upper portion of said cylinder block to facilitate casting of said cylinder block without the formation of unwanted metal voids, see figures 1-13.

With regard to claim 2, the communication passage (71) terminates in at the upper end thereof, see figure 6 and 13.

With regard to claim 3, wherein the pump comprises an engine coolant pump (55) and the communication passage (71) communicates with the cooling jacket (W).

Art Unit: 3747

With regard to claim 4, the cylinder block further including a pair of axially extending reinforcing ribs (52) each extending transversely outwardly from a central portion of a respective side of the cylinder block, see figure 4.

With regard to claim 5, see rejection of claim 4.

With regard to claim 6, see rejection of claim 4.

With regard to claim 7, see rejection of claim 2.

With regard to claim 8, the pump comprises an engine coolant pump (55) and the communication passage (71) communicates with the cooling jacket (W).

Response to Arguments

3. Applicant's arguments with respect to claims 1-8 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3747

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mahmoud Gimie whose telephone number is 571-272-4841. The examiner can normally be reached on Tuesday-Friday between 7 a.m. -3:30 p.m.
